

The MEA Advantage:

For Public Education

MEA Lobbies For You and Your Students 2017-2018 Legislative Session

Public Education

We are working with a subcommittee that has been appointed to review and develop new criteria for the current mandated high school curriculum and another subcommittee to improve the laws that impact low performing schools so they are supportive rather than punitive.

Your Rights

We are fighting to prevent passage of HB 4163 that would eliminate your right to bargain calendar and schedule. This bill would take away the voice of school employees on issues like preparation period, length of day, scheduling of PD and much more.

Your Wallet

This year we were able to get some substantial improvements in the School Aid Budget. While education is still being underfunded, we are making progress toward raising the foundation allotment while protecting school employee's retirement plan.

Your Career

We are lobbying to get funding for administrator evaluation and seclusion and restraint training, and to improve the laws related to student testing.
